

Vacation Scholarships

*For penultimate year
undergraduate students*

The Australian Telecommunications Cooperative Research Centre (ATcrc) is a leading R & D joint venture funded by the Commonwealth, industry and university partners.

The Vacation Scholarship scheme is open to students entering their final year of study in 2005 with a major in: **Electrical Engineering, Electronic Engineering, Information Technology, Computer Engineering, Computer Science, Mathematics.**

The Scholarship is \$70 per day for up to 50 days over the summer vacation period (November to February).

Application Guidelines and Forms are available from ATcrc's website:
www.telecommunications.crc.org.au

Scholarships are available to students at Curtin University, University of Western Australia, Monash University, RMIT University & Victoria University for the 2004 - 2005 summer vacation period.

A list of frequently asked questions is available from the ATcrc website, please read these before applying. Applications will only be accepted by email. Short listed applicants will be interviewed by an ATcrc representative at their University. Successful applicants will be expected to complete an Honours projects within their ATcrc node. Notification of unsuccessful applicants will be made by 24 October 2004.
