

## Web Designer

3 - 6 month Contract working for Australia's largest wheelchair manufacturer designing new company website. This represents itself as an ideal opportunity for a current final year under graduate studying in the I.T. field or a recent graduate from the same field to gain valuable work experience. Position will be working closely with senior management in developing the site and requires a professional, well presented self starter that can work with minimal supervision and achieve targets within acceptable time frames. Work will involve preparing images and collating technical specifications for each product category It is essential that applicants come from a relevant I.T. discipline and can demonstrate the fundamentals of current practices in web design.
